

Maximo® Evolution Dynamic

Recommended for tractors with cabin suspension.

The premium seat: now with Dynamic Damping System™.

MAXIMO® EVOLUTION DYNAMIC

Sets new standards of sitting and suspension comfort!

- **Dynamic Damping System™ (DDS):** The newly developed Dynamic Damping System™ enhances the proven low-frequency suspension. It noticeably reduces low-frequency vibrations and prevents the suspension from striking the stops.
- **Electronic weight adjustment:** The seat fully automatically adjusts to the driver's weight.
- **Height adjustment:** The seat adjusts to the driver's height simply by pressing a button.
- **Fore/aft isolator:** Prevents jolts to the back by attenuating vibrations in the direction of travel.
- **Lateral suspension (standard feature):** Comfortably absorbs vibrations perpendicular to the direction of travel.
- **Lumbar support:** Effectively prevents injuries of the spinal disks.
- **Integrated swivel:** Makes it easier to get in and out of the seat and keep an eye on rear attachments.
- **Active seat climate control:** Prevents sweating while on the seat.
- **Seat heating (standard feature).**
- **“Design for Use” philosophy:** The controls are arranged depending on how often they are needed, and each is differently shaped to allow intuitive setting of the seat.
