driver seats**

TOOLSET

Praticco™

Save Time and Costs.

To do a repair or maintenance job properly, it's indispensable to have the right tools handy. Without special tools, in fact, some problems are impossible to solve, while others take far too long. The Praticco™ toolset from GRAMMER spares you the annoyance of having to spend too much time getting GRAMMER seats in shape, while letting you easily reach hard-to-access spots.

Tools from Pros for Pros.

Praticco™ is the best possible toolset for professional seat repair specialists. Specially developed by GRAMMER experts for mastering any challenge, it is available in this

form and in this high level of quality only from GRAMMER. The Praticco™ Truck/Bus set is for the Route 66 models for trucks and the Linea/Tourea models for buses. The Praticco™ Offroad set is for the Maximo, Compacto, Actimo and Primo seat models.

The Praticco™ Truck / Bus set (article no. 1200875) contains:

- 1 pair of hose cutters to ensure round, perfectly angled cuts
- 1 pair of hose pliers to ensure tight connections when pulling hoses onto nipples
- Size 4 and 10 spring circlip tools for placing retaining elements
- 1 safety block to prevent uncontrolled collapse of the suspension and protect the user from injury

- 1 boot lever for quickly removing boot buttons
- 1 tool pouch

The Praticco™ Offroad set (article no. 1200873) contains the same parts plus:

- Size 5, 7 and 9 spring circlip tools for placing retaining elements (the size 4 spring circlip tool is not included in this set)
