

**Compact dimensions,
top comfort.**

COMPACTO® driver seats for
small and compact tractors.

COMPACTO® brings top comfort to small tractors.

A comfortable driver seat is not a superfluous luxury but a valuable investment in the driver's performance, safety and health. With this conviction and our awareness of what you as a farmer must accomplish every day, we at GRAMMER always care for your back when it comes to state-of-the-art driver seats.

We have developed the versatile COMPACTO® series especially for small vehicles such as vineyard or municipal tractors. These exceptionally compact retrofit seats bring custom ergonomics and functionality to a vehicle class that has little space for high seating comfort. With anatomically optimized seat cushions, different cushion widths, two types of suspension, individual weight adjustment and many other details, the COMPACTO® models offer outstanding comfort in the compact class.

SEATING COMFORT TO OPTIMIZE WORK PERFORMANCE.

The COMPACTO® highlights for fatigue-free and healthy sitting

- Highly responsive suspension with generous stroke of up to 80 mm*
- Fore/aft isolator to reduce vibrations**
- Easily adjustable weight and height setting
- Anatomically optimized shape
- Individually adjustable lumbar support
- Height-adjustable back extensions available as optional extras
- Climate channels for better air circulation for the back, buttocks and thighs

* 60 mm for COMPACTO® BASIC XS and XM

** COMPACTO® COMFORT W

2 types. 8 models. 1,000 possibilities.

The highlights of the COMPACTO® driver seats.

COMPACTO® driver seats are available in two types: the COMPACTO® COMFORT with pneumatic suspension and the COMPACTO® BASIC with mechanical suspension. With their sophisticated features, the robust GRAMMER driver seats guarantee fatigue-free work even after many hours of work. With their different widths and optional extras, you can tailor the COMPACTO® model of your choice to suit your vehicle.

GRAMMER long-life quality

The COMPACTO® suspension systems have been extensively tested in practice and are designed for many years of hard continuous use.

Customized comfort

Cushion widths of 400 to 480 mm and optional armrests ensure that the seat can be optimally adapted to the cabin width and individual comfort requirements.

More air for rough terrain

The comfortable pneumatic suspension fitted to the COMPACTO® COMFORT models feature a generous suspension stroke of 80 mm, enabling back-friendly work in rough terrains.

For fatigue-free work

The anatomically shaped seat and back padding provides climate channels for improved air circulation for the back, buttocks and thighs, thus preventing heat stress.

With built-in back support

The mechanical lumbar support is infinitely adjustable, providing optimum support for the lower back.

Smooth ride

The fore/aft isolator minimizes vibrations when you're driving quickly, using additional equipment or trailers or driving on difficult terrain (standard on COMPACTO® COMFORT W, optional on COMFORT M, S and BASIC W, M, S).

Built to last

Durable padding and seat covers ensure many years of enjoyment of your COMPACTO®.

Simply adaptable

The infinitely variable height and weight adjustment allows you to optimally adapt the seat to your individual anatomy. (COMPACTO® COMFORT models).

Sit like a king. Work like a pro.

COMPACTO® COMFORT with pneumatic suspension.

Thanks to their pneumatic suspension, the COMPACTO® COMFORT models offer clearly noticeable benefits for fatigue-free work and healthy sitting in compact vehicles. The COMPACTO® COMFORT W also features a fore/aft isolator, which reduces vibrations effectively in the direction of travel, improving comfort appreciably.

The outstanding seating comfort of these driver seats is additionally enhanced by a high level of operating convenience. The COMPACTO® COMFORT is infinitely height-adjustable and air-assisted and can be optimized effortlessly to meet your specific needs. The pneumatic suspension comes with combined weight and height adjustment. An easy-to-read indicator ensures that the remaining suspension stroke always has sufficient reserves regardless of your weight.

Your COMPACTO® COMFORT is available in different seat tops, cushion widths and extra features, so you can match it perfectly to your vehicle – no matter how small or narrow its cabin is.

Ergonomically shaped. Built to last. Thought out in every detail.

COMPACTO® BASIC with mechanical suspension.

The COMPACTO® BASIC models feature mechanical suspension but adapt just as individually to your comfort requirements as the COMFORT versions. Three different seat heights can be set via an easy-to-turn knob. While sitting, the user then operates a lever at the front to align the seat's weight with the selected height in an easy-to-read display. This ensures that your COMPACTO® BASIC always provides you with sufficient suspension stroke.

COMPACTO® BASIC Modell XS

Mechanical suspension

Mechanical weight adjustment

The ultra-compact BASIC XM and XS models introduce suspension-based GRAMMER seating comfort to even the very smallest cabs for the first time. With a suspension stroke of 60 mm and a height limiter, they can be used in tractors to which previously only non-suspended seats were available. Like all COMPACTO® driver seats, these two models also come with individual weight and height adjustment.

With COMPACTO[®], it's not just the inner values that count. But everything else as well.

Your new COMPACTO[®] features many good ideas, innovative solutions and solid technology. Our more than 65 years of experience in the development and production of driver seats for commercial vehicles combined with excellent OEM quality have made us a market and innovation leader as well as a preferred original equipment supplier to the automotive industry. Yet, we are also uncompromising when it comes to service for your new GRAMMER seat. This makes up the high added value of GRAMMER solutions.

THE GRAMMER ADDED VALUE ADVANTAGE

Via our authorized and qualified sales partners as well as specialized retail outlets, we ensure that your high demands with respect to service and advice are fulfilled.

GRAMMER seats can be retrofitted with little effort, allowing you to upgrade your vehicle quickly and simply with modern and functional seating comfort.

Together with our sales partners, we have a global presence. In this way we can guarantee swift availability of our products and spare parts.

GRAMMER seats are designed for high durability. Likewise, you can count on lasting supplies of accessories and spare parts.

GRAMMER seats set standards in ergonomics and comfort. We invest heavily in research and development to maintain driver health and enable fatigue-free work.

Our goal is to be the innovation leader in vehicle seats. Thus, we are constantly seeking new pioneering solutions to additionally improve the design, ergonomics, functionality and quality of our products.

ENHANCE YOUR SEATING COMFORT.
