MAXIMO® XXL

Comfort Seat with
Low-Frequency Suspension

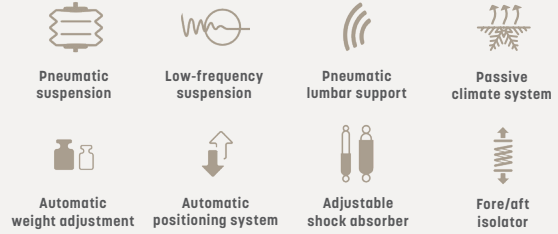

MAXIMO® XXL

Technical data

Comfort seat

The Maximo XXL is a comfort seat with an extensive feature package. Its low-frequency suspension maximizes driving comfort by absorbing vertical vibrations and jolts. This prevents bouncing as a result of resonance build-up. Additionally, the mechanical lumbar support offers ideal support for the spine, while the passive climate system allows relaxed working at all temperatures. The ergonomic shape of the tapered backrest and the wide cushions combine maximum freedom of movement with firm support. The Maximo XXL is suitable for big forklift trucks and construction machines.

Features

ARTICLE NO.	
Fabric	1292187
STANDARD FEATURES	
1 Shock absorber, adjustable	●
Pneumatic suspension with 12 V compressor	●
Low-frequency suspension	●
Suspension stroke, 100 mm	●
Weight adjustment, automatic, 50-130 kg	●
